avast business

Avast Business Antivirus

Advanced antivirus protection for all devices

Antivirus is the first line of defense against today's cyberthreats so it needs to be powerful. Avast Business Antivirus is an award-winning, full-featured antivirus solution for small and medium-sized businesses that keeps devices protected from today's sophisticated cyberthreats – whether it's a known ransomware variant or a never-seen-before, zero-day attack.

Block cyberthreats from entering your network
Our Web, File, Email, and Behavior Shields work together to actively analyze suspicious information coming and going from devices and block malicious files, dangerous websites, unusual behavior, unauthorized connections, and other threats.

Protect against zero-day attacks
All new, unknown, and rare malware variants found by our four-shield defense system are quarantined by CyberCapture, our proprietary technology that quickly scans suspicious files for deeper analysis in a safe cloud environment.

Predict and identify new threats
400 million+ active users in our network provide a continual stream of data that helps us quickly identify and destroy any threat – and predict future ones. Across the globe, our immense cloud-based machine-learning engine is evolving and learning, making our solutions smarter, faster, and more powerful than ever.
