Experience the True Power

of the Command IQ App

Check your internet speed.

Run bandwidth tests to monitor your network performance and give bandwidth priority to specific devices.

Easily set-up a guest network.

Keep your network passwords secure by setting up separate guest networks for your visitors.

View and manage all devices connected to your network.

Track a device's bandwidth usage, pause its network access, or disconnect it.

Set parental controls.

See what apps your kids are using, how long they're used for, and tailor their experience by blocking inappropriate sites and content, or setting usage limits.

Active alerts.

Receive alerts whenever a new device connects to your network, when your network is down and when it is restored, and your bandwidth test results.
